Tips for Our Brides

- ♥ Do take advantage of hair and makeup trial runs.
- ♥ Do get brows waxed two weeks before to allow time for redness to diminish.
- ♥ Don't get a deep cleansing facial within two weeks of the big day. Your skin needs time to heal.
- ♥ Do invest in lipstick if you have your makeup professionally done.

Pre-Wedding Day Planning

Consider the time of day and type of wedding when choosing a hair design. Loose styles are appropriate for informal or daytime weddings, while up-do's portray a formal, evening look.

If you are planning a wedding on the beach, be practical. Coastal weather can be unpredictable.

NEVER use a conditioning treatment on the wedding day! During a Bridal Hair Consultation you will find out if you need to grow your hair length, improve the condition of your hair, change your hair color or add some highlights to achieve a desired look.

If possible, bring along a photo of your dress and Hair Designs you may want to try during your Bridal Hair Consultation.

If your hair stylist asks you to show up with dirty hair for your wedding day, don't be too surprised. Some styles work best when the hair isn't too clean, depending on your hair type. Just washed hair can be fly-away and less manageable.

Record your travel time from the salon to where you are getting dressed. Add extra time for getting dressed and makeup if the salon is not applying it.

Please contact us at least 30 days in advance to schedule a wedding day appointment. We can usually accommodate up to six people with staggered appointments.

On Your Wedding Day

Wear a button down shirt when you're getting your make-up and hair done. Otherwise it's either mess up your finished look or cut off your shirt!

Be who you are on your wedding day and ultimately, your true beauty will shine through!
